

How Column Sorting Works

Sorting allows you to place the data within that column in an ascending and descending order.

1. From **User** drop down menu, select **Profile** to open **User Profile** screen.

2. Navigate to **Preferences Tab > Dashboard** and enable the **'Enable Column Sorting'** option, then click the **Save toolbar button**.

- **Click the column header:**

On the main Dashboard, simply click once on any column header to sort by ascending and click twice to sort by descending.
