How to Run the Origin Advanced Installer

1. Welcome Screen

2. Select Installation folder.

Select Installation Folder		
This is the folder where iRel	v Accounting will be upgraded to v14.2.	
To upgrade in this folder, cli click "Browse".	ck "Next". To upgrade to a different fol	der, enter it below or
Folder: c:\test\		Browse
' Backup Folder:		
c:\irelyinstall\		Browse
dvanced Installer		

- Install Folder By default, Install Folder field will display D:\irely\. Click Browse to change the folder path.
- Backup Folder By default, Backup Folder field will display D:\irelyinstall\. Click Browse to change the folder path.

NOTE: Make sure that there is a backslash (\) at the end of the path(s).

Create folder "iRely" on the install folder if you will install for 01 and 99. Some of the customers may have another company like 02, 03. This will be configured in "iRely" too.

Create folder "EOM" on the install folder if you will install for EOM.

Create folder "Test" on the install folder if you will install for TE. **3.** Check list before starting the installation

Ready to Upgrade The Wizard is ready to begin	a the iRely Accounting v14.2 upgrade
Click "Install" to begin the up	ograde. If you want to review or change any of your "Click "capce" to evit the wizard
All compani	ies End Of Day process has been ran
🔽 All users ar	e out of iRely system
Advanced Installer	

Above is the check list to make sure, the AG & GA End of Day Process has been completed and all the users out of the iRely Accounting system. **4.** Running Audit process

Click on the 'Install' will first run the data audit process to check the data error that may stop the Data Conversion. Installer will proceed to the next level only if the audit process is successful, else the below pop up will notify the user, if there is any error occurred in audit process.

×	14.2 Data Conversion will be failed! As Conversion Audit encountered some errors. Please check the status file for detailed errors.
	ОК

NOTE: Another screen should pop-up with the ssaudit log. Search for "File Status" or EOD errors.
