

Login Screen

1. Open your iRely instance in the browser and the Login screen will be displayed.
2. Enter the user credentials (**User Name**, **Password** and **Company**). Note that User Name field is not case sensitive, but the Password is.

Username	<input type="text" value="SampleUser"/>
Password	<input type="password" value="...."/>
Company	<input type="text" value="01"/>

3. Click the **Login** button.

4. If the User is logging in for the first time, he/she must accept the **End User License Agreement** first
5. If the User is an existing user or has already accepted the License Agreement, the iRely main menu will appear.
