

# How to Setup Promotional Pricing - By Discount Thru Amount - Begin and End Dates are blank

Follow the steps below to guide you on how to setup Special Pricing.

- 1. Open **Item screen > Pricing tab > Special Pricing tab.**
- 2. A new line will be available to allow you to add a new special pricing information.
- 3. Pricing is setup per location. Select a location in the **Location field.**
- 4. Select the **Promotion Type.**
- 5. Select Item **UOM.** To show how Unit Price is computed on this tab, see [How Unit Price is computed based on UOM selected.](#)
- 6. The **Qty field** will be updated by the Unit Qty setup of the UOM you selected.
- 7. In the Discount By field select either Percent or Discount
- 8. Depending on the Discount By selected, fill in amount or percent in the **Amount/Percent field.**
- 9. The **Unit Price** will automatically be computed based on Retail Price/MSRP, Pricing Method and Amount/Percent selected.
- 10. The **Discounted Price** will automatically be computed based on Unit Price, Discount By and Discount Amount/Percent. To show how Discounted Price is computed, see [How Discounted Price is computed based on Discount By selected.](#)
- 11. Leave **Begin and End Date fields** blank.
- 12. In the **Disc thru Amount field** enter the amount that must be purchased for the discount/rebate to be effective.
