Refresh

- 1. From the **Ticket Management** menu, click on **Grading Equipment**.

2. Select an existing Grading Equipment from Grading Equipment Search screen and click **Open**.

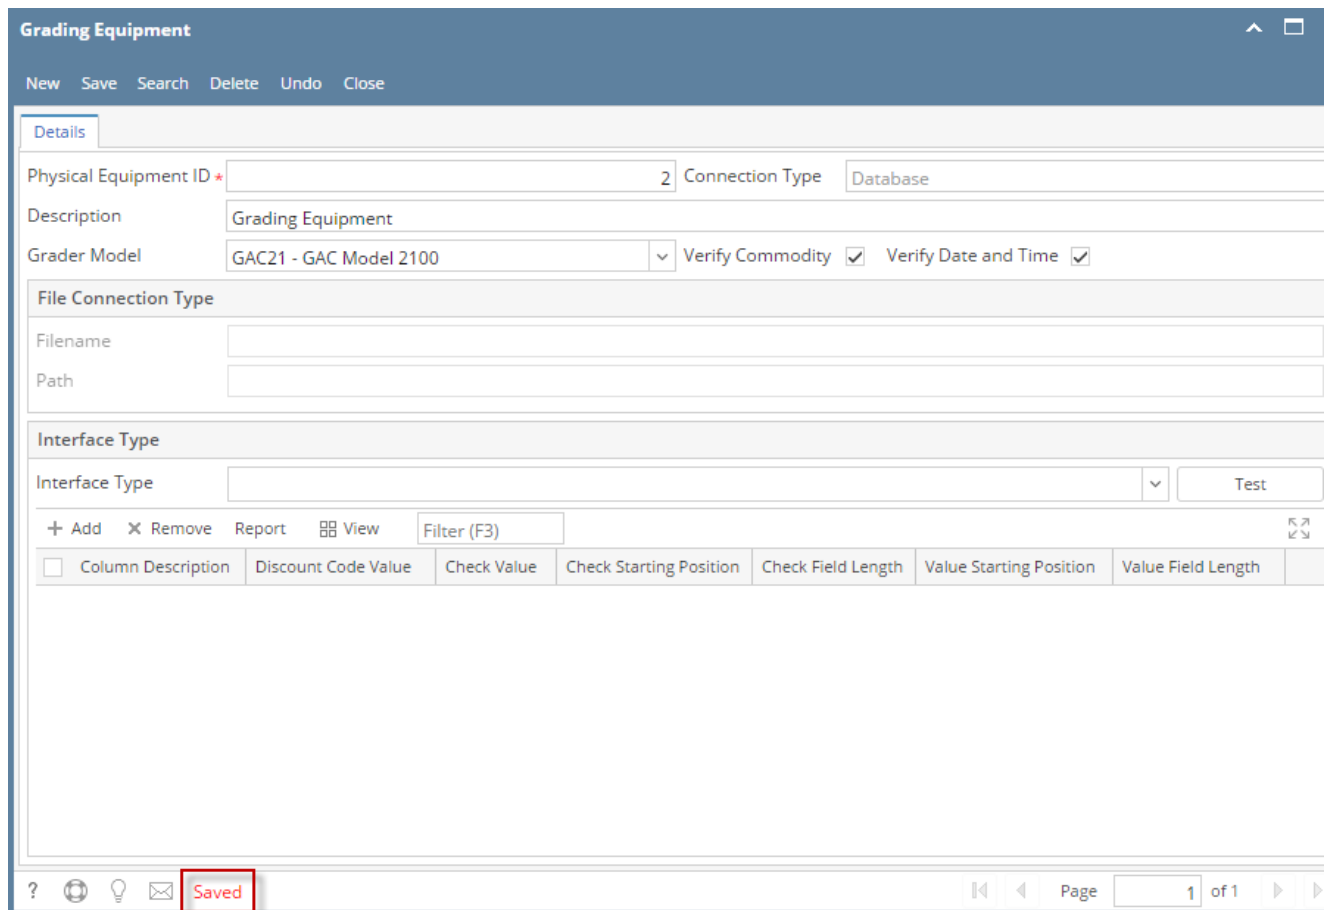

The screenshot shows the 'Grading Equipment' form with the following details:

- Physical Equipment ID:** 2
- Connection Type:** Database
- Description:** Grading Equipment
- Grader Model:** GAC21 - GAC Model 2100
- Verify Commodity:** ☒
- Verify Date and Time:** ☒

The form includes sections for 'File Connection Type' (Filename, Path) and 'Interface Type' (Interface Type, Test button). At the bottom, a table lists columns: Column Description, Discount Code Value, Check Value, Check Starting Position, Check Field Length, Value Starting Position, and Value Field Length. The status bar at the bottom indicates 'Edited'.

3. Perform the desired changes and click on **Save**. The changes will be saved.

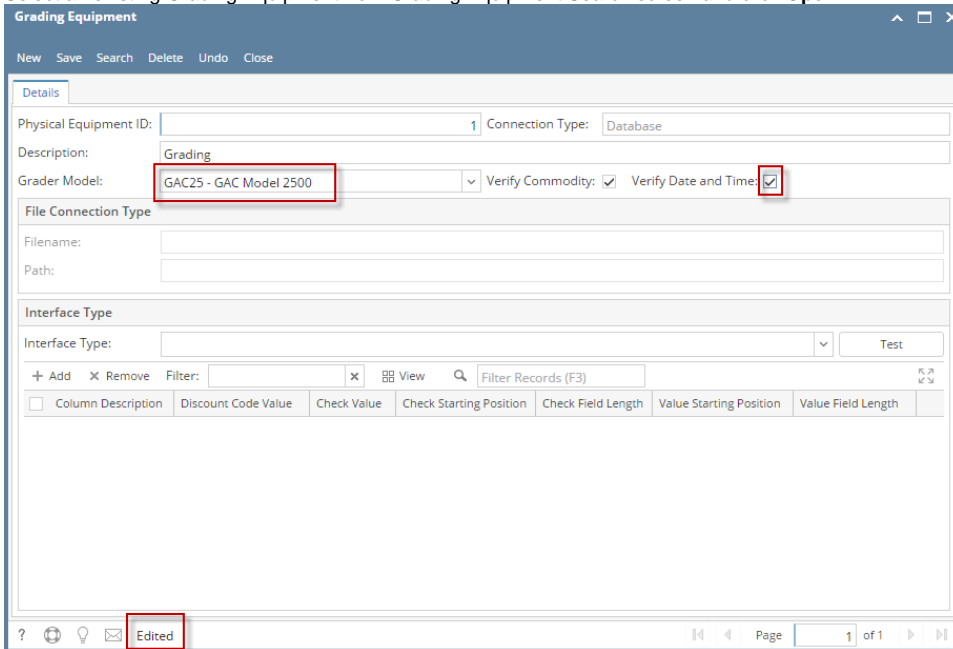

The screenshot shows the 'Grading Equipment' form after saving. The details are identical to the previous state:

- Physical Equipment ID:** 2
- Connection Type:** Database
- Description:** Grading Equipment
- Grader Model:** GAC21 - GAC Model 2100
- Verify Commodity:** ☒
- Verify Date and Time:** ☒

The status bar at the bottom now indicates 'Saved'.

1. From the **Ticket Management** menu, click on **Grading Equipment**.

2. Select an existing Grading Equipment from Grading Equipment Search screen and click **Open**.

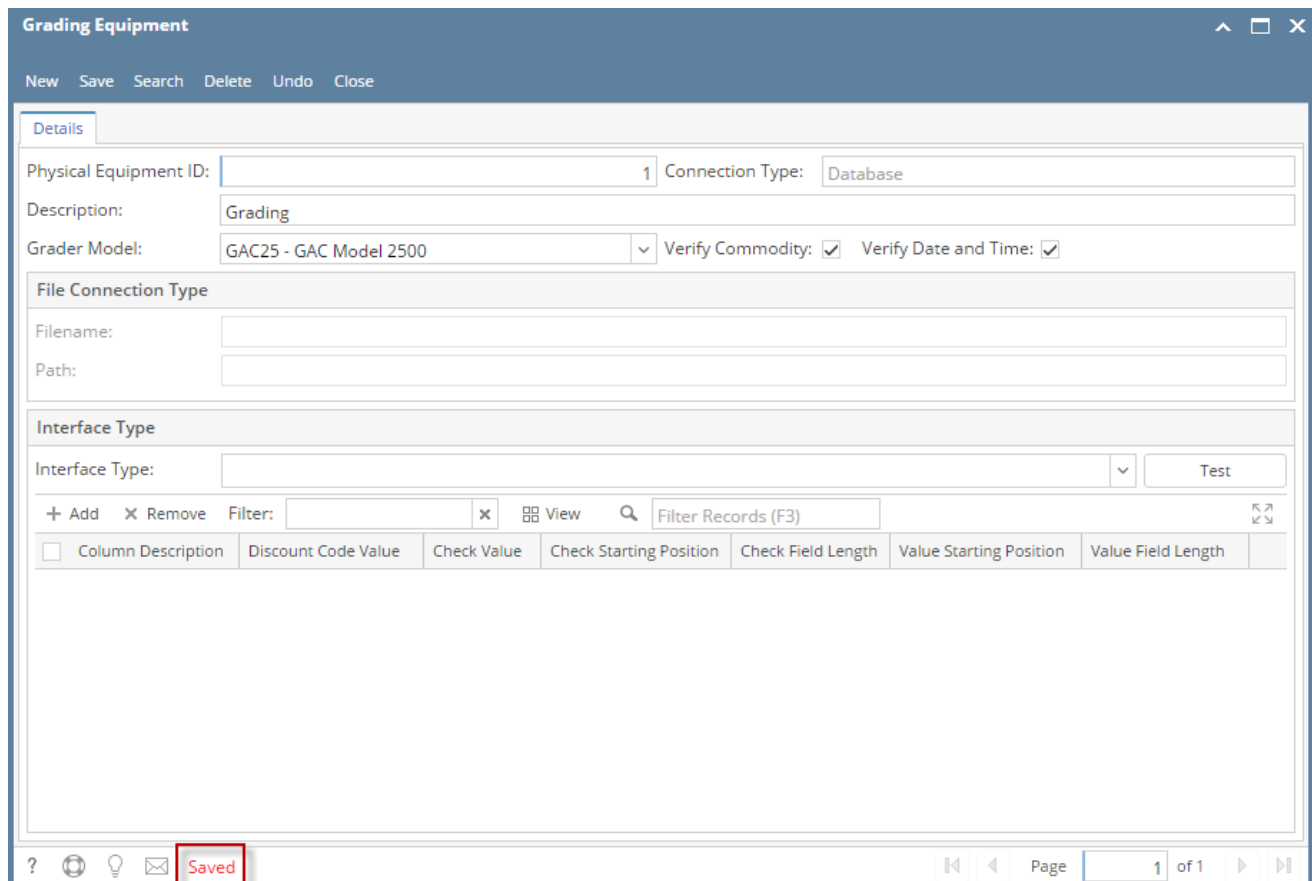

The screenshot shows the 'Grading Equipment' form with the following details:

- Physical Equipment ID:** 1
- Connection Type:** Database
- Description:** Grading
- Grader Model:** GAC25 - GAC Model 2500
- Verify Commodity:** ☒
- Verify Date and Time:** ☒

The form includes sections for 'File Connection Type' (Filename, Path) and 'Interface Type' (Interface Type, Test button). At the bottom, a table lists columns: Column Description, Discount Code Value, Check Value, Check Starting Position, Check Field Length, Value Starting Position, and Value Field Length. The status bar at the bottom indicates 'Edited'.

3. Perform the desired changes and click on **Save**. The changes will be saved.

The screenshot shows the 'Grading Equipment' form after saving. The details are identical to the previous state, but the status bar at the bottom now indicates 'Saved'.
