Inbound Manager

An Inbound Manager screen loads all the Inbound order created directly or through other modules like PO, Contracts or through external system using EDI.

Inbound Order Header					
New Open Refresh Export ▾ Close					
⊞ Layout 🔍 Filter Records (F3)		1 records			
☐	Bol No	Order Direction	Cust Order No	Ref No	Truck	Pro No
☐	PO-10001	INBOUND	Vendor:20001	Ref: 20001	TRUCK10006	PO-10001

The manager screen has the following menus and Order data grid to load the records.

Menu:

Menu	Usage
New	To create a new Order
Open	To Open/Edit an existing order
Export	To Export to Excel, PDF or TEXT files
Close	To Close the manager screen

Order data grid:

The order data grid contains the below columns of a record to display under manager screen:

Column	Description
BOL No	The Order number created in i21
Order Direction	The type of the order
Cust Order No	The Customer Order number
Ref No	The Order reference number
Truck	The Truck id linked to the Order
Pro No	The shipment tracking number
