

How to Open a Panel Settings record

- From **Panel List** screen:
 - On **Dashboard Main Menu**, click **Panels**. This will open the **Search Panel List**.
 - Select a panel in the grid, then click the **Open** button.

- From **Dashboard panel > Title Bar**:
 - [Open the Dashboard](#). Look for the panel you want the Panel Settings record opened.
 - Double click on the **Panel's Title Bar**.

- From **Dashboard panel > Panel Options**:
 - [Open the Dashboard](#). Look for the panel you want the Panel Settings record opened.

2. Click the **Panel Options > Settings** button.
