## How to Create Standard Sales Order

Below are the steps in creating a standard Sales Order.

1. Open the Sales | Sales Orders menu. If there is no existing record yet, this will open a new Sales Order screen. If not, click the New button on the integrated search grid.

You will notice that some of the fields, like the **Type**, **Date**, **Due Date**, **Location**, **Ordered By**, **Status**, and **Currency** are already populated by default. You can still change these value if necessary.

- 2. Fill out the header details as needed. The required details are Customer, Location, Bill To, Ship To, Terms, and Currency.
  - a. Type is already set to Standard by default. Leave it as is.
  - b. Select the **Customer** to whom the order is from.
  - c. Select a different Location, Bill To, Ship To, Terms, and Currency if needed. But don't leave these fields blank.
- d. Enter other details that you see necessary. Refer to Sales Order | Field Description | Header Details to help you in filling out the fields.
   3. Add details on grid. Refer to Sales Order | Field Description | Grid Details to help you in filling out the fields. Note that UOM is a required detail. Complete filling in the Item No, Ordered, Price, and other fields necessary to ensure they are appropriate for the customer's order.
