

How do I delete Quality Template?

1. Go to Quality --> Quality Template.
2. Select one existing record.
3. Click on Open.
4. System will open Quality Template editor screen.
5. Click on Delete button.

The screenshot shows the 'Quality Template' editor window. The top menu bar includes 'New', 'Save', 'Search', 'Delete' (highlighted with a red box), 'Undo', 'Duplicate', and 'Close'. Below the menu is a tabbed interface with 'Details', 'Property Limits', 'Audit Log (0)', and 'Comments (1)'. The 'Details' tab is active, showing a form with fields for 'Product Type' (Item), 'Product Value' (10001), 'Description' (WM Milk Cow Trace Mineral - Bulk), 'Directions', and 'Notes'. On the right side, there are two lists: 'Test Details' and 'Tests'. The 'Test Details' list includes 'Control Point Name', 'Offer Sample', 'Approval Sample', and 'Receipt Sample'. The 'Tests' list includes 'Ash Content', 'Brew Test', 'Caffeine Analysis', 'Certificate - Allergen Free', 'Certificate - Fair Trade', 'Certificate - GMO', 'Certificate - Organic', 'Certificate - Radioactive Matter', 'Certificate - RFA', 'Container Inspection', 'Density', 'Eurofins Test - Chemical Residue', 'Eurofins Test - Heavy Metal', and 'Flavour Strength'. A search bar and 'Filter Records (F3)' button are located above the 'Tests' list.
