

How to Configure Item Categories for Warehouse

The Item Category should be checked for Tracked in Warehouse to use in Warehouse

Steps:

1. Go to Inventory--> Category--> Open the Category --> Manufacturing Tab
2. Select 'Tracked in Warehouse' check box
3. Click on 'Save' button

The screenshot shows a software window titled 'Category' with a menu bar (New, Save, Search, Delete, Undo, Close) and several tabs (Detail, Locations, GL Accounts, Vendor Category Xref, Manufacturing). The 'Manufacturing' tab is active. The form contains various input fields and checkboxes. The 'Tracked In Warehouse' checkbox is checked and highlighted with a red box. Below the form is an 'Images' section with four image placeholders (Receipt Image, WIP Image, FG Image, Ship Image) and 'Add Photo' links. The status bar at the bottom indicates 'Edited' and 'Page 1 of 1'.

Field	Value
ERP Item Class:	
Life Time (mins):	0.00
BOM Item Shrinkage:	0.00
BOM Item Upper Tolerance:	0.00
BOM Item Lower Tolerance:	0.00
Scaled:	<input type="checkbox"/>
