

How to Create a Container

1. Go to Warehouse--> Container
2. Click on New
3. Enter Container Number
4. Select the Container type as 'STANDARD PALLET'
5. Select the Storage Location
6. Click on Save button (Created Container will be available to select in SKU detail screen)

The screenshot shows the 'Container' application window with the following details:

- Container No: CON-101
- Container Type: STANDARD PALLET
- Storage Location: Container type
- Tare Weight: STANDARD PALLET

Below the form, there is a table with the following data:

SKU No	Description	SKU Status	Lot ID
	CHEP		
	PRODUCTION PALLET		
	HI LOAD PALLET
