☐ Send a notification of cancel message to the driver?

Optional:

Help Ready

- If a notification needs to be sent to the driver, select the **'Send a notification of cancel message to the driver?'** option, and then enter the message.
- Click the **Proceed** button.

- Via the Delivery Dispatching screen:**

- On the Menu panel, double click the **Dispatch Deliveries** menu. This will open the **Delivery Dispatching** screen.
- Filter the records in the grid using the fields in the **Selection Criteria** panel.

Selection Criteria

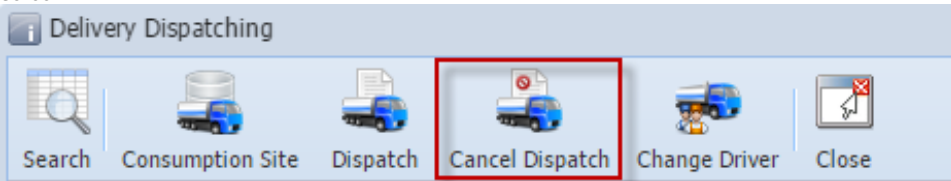

Condition	From	To	Condition	From	To
Bulk Plant Location:			Route ID:		
Next Degree Day:		0	Requested Date:		
Dispatched Driver ID:			Item:		

Include: ☐ Will Calls ☐ Dispatched Calls

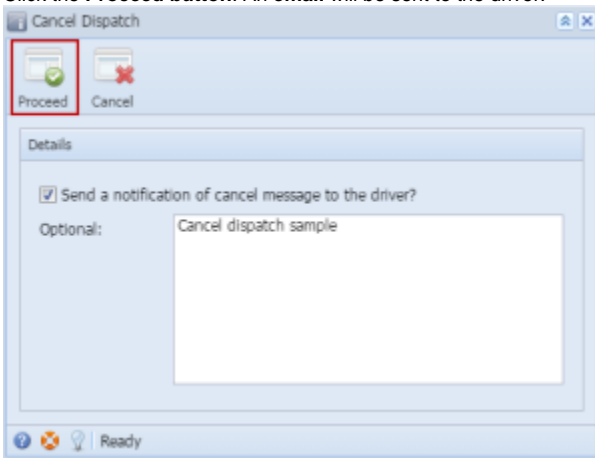

3. Click the **Search toolbar button**.

4. Select the consumption site record in the grid, and then click the **Cancel Dispatch toolbar button**. This will open the **Cancel Dispatch screen**.

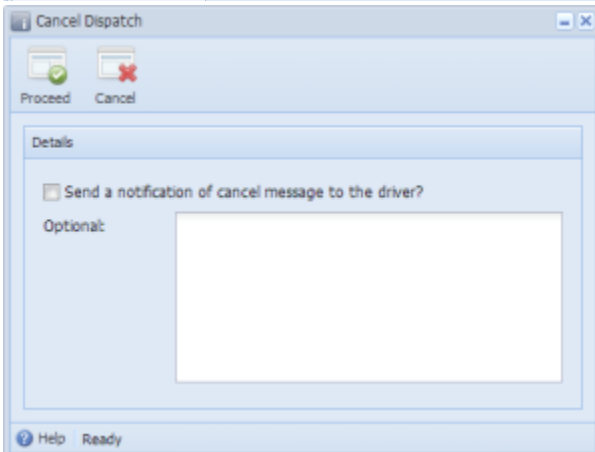

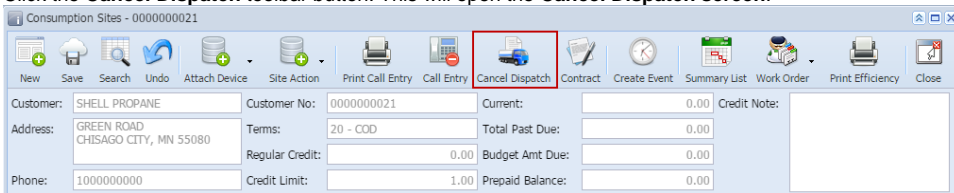

5. If a notification needs to be sent to the driver, select the 'Send a notification of cancel message to the driver?' option, and then enter the message.
6. Click the **Proceed button**. An **email** will be sent to the driver.

- **Via the Consumption Sites screen:**

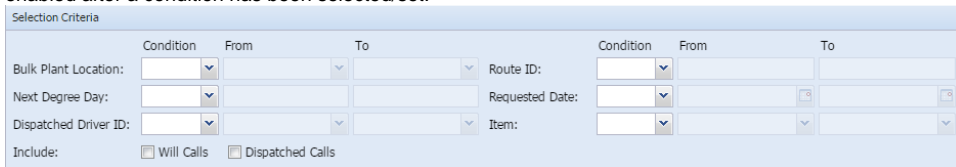

1. [Open the Consumption Sites record](#) wherein the dispatched delivery needs to be cancelled. This means, that the site record has an active Call Entry which is already dispatched.
2. Click the **Cancel Dispatch toolbar button**. This will open the **Cancel Dispatch screen**.

3. If a notification needs to be sent to the driver, select the '**Send a notification of cancel message to the driver?**' option, and then enter the message.
4. Click the **Proceed button**.

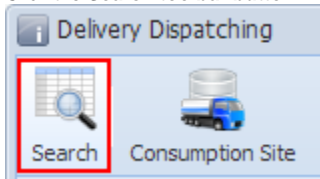

- **Via the Delivery Dispatching screen:**

1. On the Menu panel, double click the **Dispatch Deliveries** menu. This will open the **Delivery Dispatching screen**.
2. Filter the records in the grid using the fields in the **Selection Criteria panel**. By default, From and To fields are disabled and will be enabled after a condition has been selected/set.

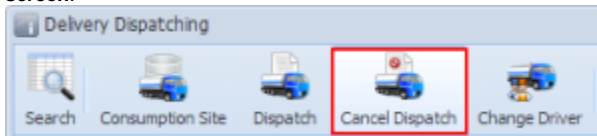

The 'Selection Criteria' panel contains two identical sets of filters. Each set includes a 'Condition' dropdown, a 'From' field, a 'To' field, and a 'Route ID' dropdown. Below these are 'Next Degree Day' and 'Requested Date' dropdowns, and 'Dispatched Driver ID' and 'Item' dropdowns. At the bottom, there are checkboxes for 'Will Calls' and 'Dispatched Calls'.

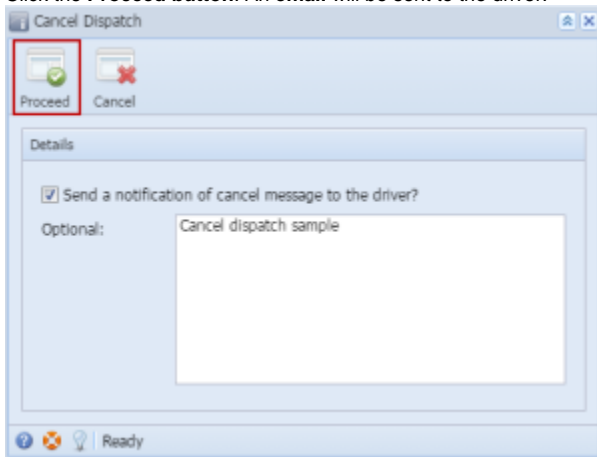

3. Click the **Search** toolbar button.

4. Select the consumption site record in the grid, and then click the **Cancel Dispatch** toolbar button. This will open the **Cancel Dispatch screen**.

5. If a notification needs to be sent to the driver, select the 'Send a notification of cancel message to the driver?' option, and then enter the message.
6. Click the **Proceed** button. An **email** will be sent to the driver.

The 'Cancel Dispatch' screen has a 'Details' section. It features a checkbox labeled 'Send a notification of cancel message to the driver?' which is checked. Below this is an 'Optional:' text area with the placeholder text 'Cancel dispatch sample'. At the top left, there are two buttons: 'Proceed' (with a green checkmark icon) and 'Cancel' (with a red 'X' icon). The 'Proceed' button is highlighted with a red rectangle. The status bar at the bottom shows 'Ready'.
