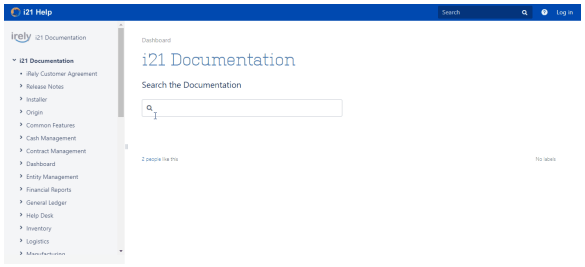
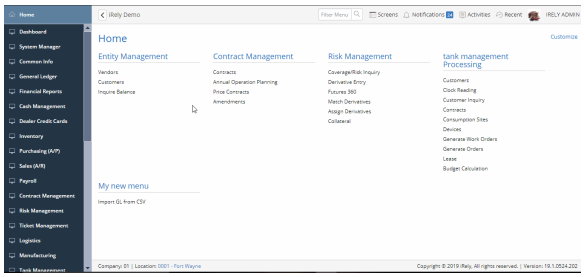
i21 Documentation

Search the Documentation

Thank you for visiting the iRely Help Center. For your convenience we offer our full release notes, as well as our help manual for our i21 platform. The flow of the Help Center is similar to our i21 platform.



The main menus are titled the same as our main menus in i21, with the sub-menus below them. You are also able to access these screens directly from i21.



If you have any questions or need some extra help, please feel free to call us 800-433-5724
