

# How to Delete State

Here's the step on deleting State:

1. Go to **Transports > Transport Load** and click **New** button
2. Click **Diversion** tab and check Diversion checkbox
3. Click **Original Destination State hyperlink**
4. On the Grid area, select one or more record to delete and click **Remove** button

The screenshot shows a software window titled "State" with a dark blue header bar. Below the header is a toolbar with "Save", "Undo", and "Close" buttons. A secondary toolbar contains a "+ Insert" button, a highlighted "X Remove" button, a "View" button with a grid icon, and a "Filter (F3)" text box. The main area is a table with two columns: "State Name\*" and "State Abbreviation\*". The table contains three visible rows: "Illinois" with abbreviation "IL" (selected with a checked checkbox), "Nebraska" with abbreviation "NE", and "Indiana" with abbreviation "IN". There is an empty row below "Indiana".

State Name*	State Abbreviation*
<input checked="" type="checkbox"/> Illinois	IL
<input type="checkbox"/> Nebraska	NE
<input type="checkbox"/> Indiana	IN
<input type="checkbox"/>	

5. Select **Yes** on confirmation message
