

# Create Source

1. From **CRM** module, click **Sources**. Sources screen will appear.

- 2. To add Source, go to the next available row or click Insert button.
- 3. Provide **\*Source** (Source should be unique)
- 4. Click Save button to save the type.

*\*user can add multiple Source as long as the Source is unique.*

*\*text - denotes required field to create Source*
