

# How to Delete a Panel

Deleting a Panel from Dashboard can be accomplished in various ways. You can remove the panel from displaying, yet still resides in the **Search Panel List**, or ability to set the visibility of the panel to on/off on panel list or delete the panel entirely from the Dashboard.

Deleting a panel entirely from the Dashboard can be done through **Panel Settings screen**.

Here are the steps:

1. Open the **Panel Settings** of the record you want to delete, and click the **Delete toolbar button**.

2. Select **Yes** on the warning message.
