

# How to Show More Rows - Make Panel Longer

Each user has the ability to determine how many rows will be displayed for each panel. You can make each panel longer with more rows with a couple clicks, see below.

1. [Open the Panel Settings record.](#)
2. Change the number in **Rows Visible** field. You can either select from the combo box list or manually enter a value.

The screenshot shows the 'Panel Settings - TEST PANEL' window. The 'Settings' tab is active. The 'Rows Visible' field is highlighted in light blue and set to 50. The 'Query' field contains the text 'select \* from tblCFTTransaction'. The 'Connection' is set to 'i21', 'Date Condition' is 'None', 'Date Field' is empty, 'Other Filter' is 'None', 'Filter Variable' is empty, 'Filter Field' is empty, 'Drill Down' is 'None', 'Auto Refresh panel every' is '1 Minute', 'Owner' is 'irelyadmin', and 'Order By' is empty. The 'Descending' checkbox is unchecked. The status bar at the bottom shows 'Page 1 of 1'.

Panel Name	TEST PANEL	Class	Master	Rows Retrieved	0
Panel Caption	TEST PANEL	Style	Grid	Rows Visible	50
Description					
Query	select * from tblCFTTransaction				
Connection	i21	Date Condition	None	Date Field	
Other Filter	None	Filter Variable		Filter Field	
Drill Down	None	<input type="checkbox"/> Auto Refresh panel every 1 Minute			
Owner	irelyadmin	Order By		<input type="checkbox"/> Descending	

3. Save then close the record.

Alternately, panel display size can be enlarged or reduced by dragging the edges.

1. On Display Panel screen, click on the panel edge then drag to desired size.
