2. Click **'Import'** grid button to open and display **Import Network Cost** screen.

3. Select **Network** and file to import from your local folder. Click **'Import'** toolbar button to import selected file. Successful and failed imports will be displayed.

4. Imported **Network Costs** will be displayed on the **Network Cost screen**.

A screenshot of the 'Search Network Costs' application window. The window has a title bar with 'Close', 'Maximize', and 'Close' buttons. Below the title bar is a 'Network Cost' tab. The main area contains a table with columns: Network Name, Site Number, Site Name, Site Group, Date, Item Number, Item Description, Transfer Cost, and Taxes Per Unit. There are two records displayed. The bottom of the window shows a status bar with a question mark, a globe icon, '4.42s', 'Ready', and a 'Refresh' button.
