

How to Check Company Titled Quantity

1. Get the Total On Hand by running the Inventory valuation.
2. Take note the Company Owned Storage (e.g. DP/Delayed Pricing) bucket displaying in the Position Detail | Inventory Detail grid Section.
3. If the **Includes DP Purchases in Company Titled** is **checked**, your Company Titled is also the Total On hand. That is, if you do not have Collateral and Sales Basis Deliveries.
If the **Includes DP Purchases in Company Titled** is **unchecked**, you Company Titled is On hand - Inventory Receipts (created from DP Contract).
