

How to Create Site Group

1. From **Card Fueling** module, click **Setup**. The **Setup** screen will be displayed.
Click **Site Group** button. **Site Group** screen will be displayed.

2. Click on the blank cell to enable typing action. Enter **Site Group** name, **Description** and **Type**.

The screenshot shows a 'Site Group' dialog box with a table containing 7 records. The 'TEST' record is selected, and a dropdown menu for 'Type' is open, showing options: Type, Pricing, and Rebate.

Site Group*	Description	Type*
<input type="checkbox"/>	SampleSiteGroup	Pricing
<input type="checkbox"/>	PO	Pricing
<input type="checkbox"/>	WIS	Pricing
<input type="checkbox"/>	HAR	Pricing
<input type="checkbox"/>	Bend-OR	Pricing
<input type="checkbox"/>	VW	Pricing
<input type="checkbox"/>	FW	Pricing
<input checked="" type="checkbox"/>	TEST	Pricing
<input type="checkbox"/>		Type
		Pricing
		Rebate

3. Click **Save** toolbar button to save created **Site Group**.
Then click the **Close** toolbar button or **X** button.
