How to Remove Panel from Display Dashboard

This will remove the panel from the display canvas of the Dashboard but will leave the panel in the Panel List for later use.

1. Click the **Panel Layout** menu from the Dashboard Menu.

2. Find the panel you want to remove, check the panel and hit the **Remove From Tab** button.
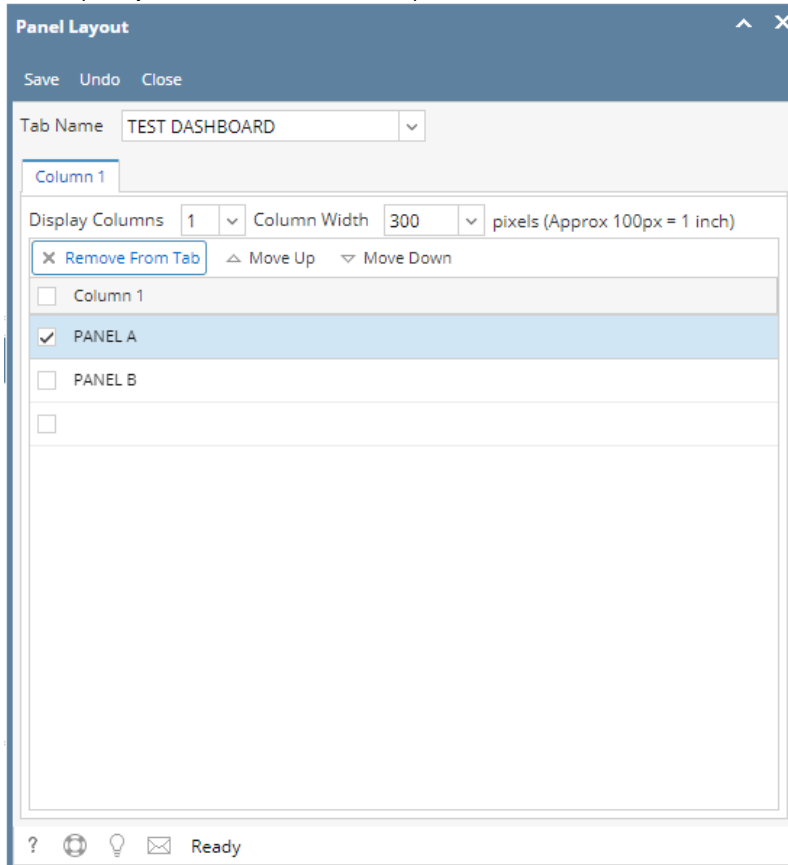

3. Select **Yes** on the confirmation message.

4. Click **Save** then **Close** toolbar button to cascade the changes.
