

How to Delete a Shipping Method

1. On the user's menu panel go to **Common Info** folder then click **Ship Via**
2. Select a record from the list by clicking on it or the check box besides it.

Remove Filter:

Ship Via	Shipping Service	Name	Address	City	State	Zip Code	Federal ID	Transporter License	Motor Carrier IFTA	Transportation Mode	
<input checked="" type="checkbox"/>	DHL	DHL Express	Test	Phils	Makati	NCR	1227	00123	1234	Test	Ship

3. Click **Remove** button. A confirmation message will appear.

4. Click **Yes** on the message box.
5. Click **Save** toolbar button.

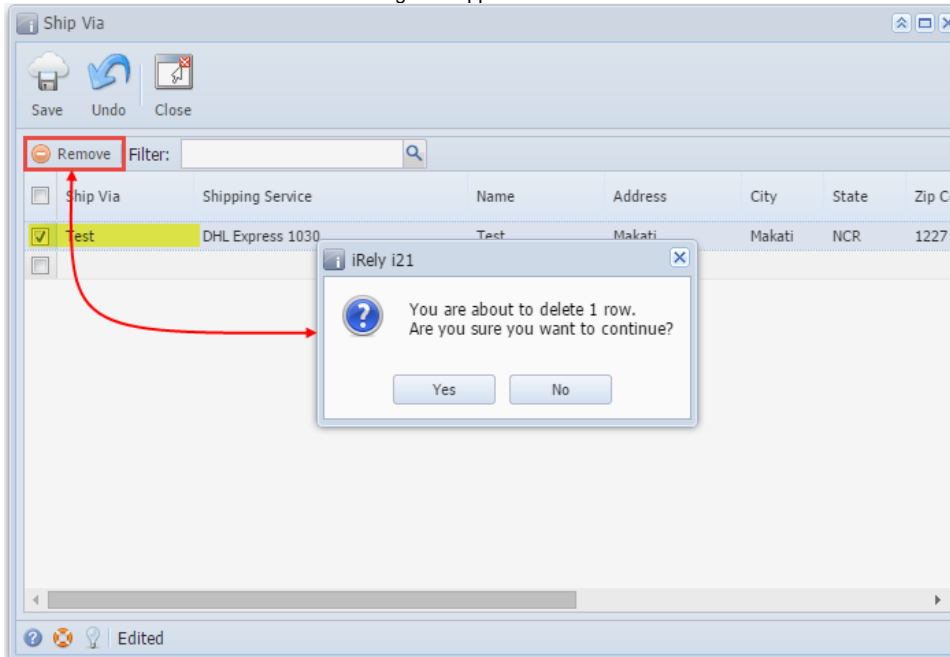

1. On the user's menu panel go to **Common Info** folder then double click **Ship Via**
2. Select a record from the list by clicking on it or the check box besides it.

Remove

Filter:

<input type="checkbox"/>	Ship Via	Shipping Service	Name	Address	City	State	Zip Code
<input checked="" type="checkbox"/>	Test	DHL Express 1030	Test	Makati	Makati	NCR	1227

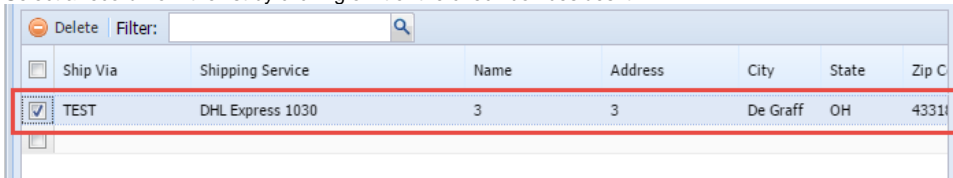

3. Click **Remove** button. A confirmation message will appear.

4. Click **Yes** on the message box.
5. Click **Save** toolbar button.

1. On the user's menu panel go to **Common Info** folder then double click **Ship Via**

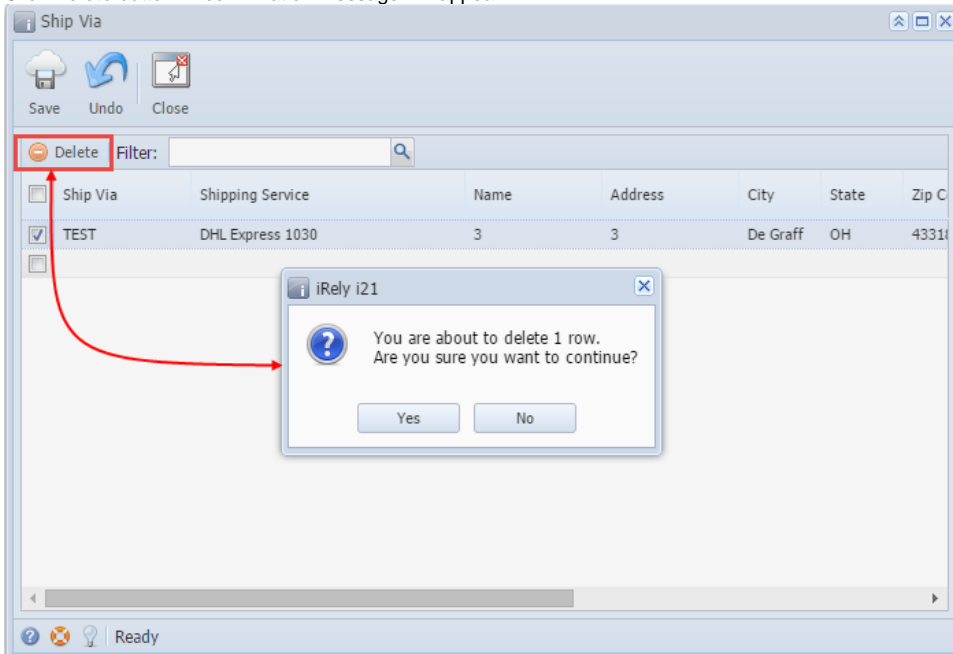

2. Select a record from the list by clicking on it or the check box besides it.

The screenshot shows a software interface with a 'Delete' button and a table. The table has columns: Ship Via, Shipping Service, Name, Address, City, State, and Zip Code. The first row is selected, indicated by a red rectangle and a checked checkbox in the first column.

Ship Via	Shipping Service	Name	Address	City	State	Zip Code
<input checked="" type="checkbox"/>	TEST	DHL Express 1030	3	3	De Graff OH	43311

3. Click **Delete** button. A confirmation message will appear.

4. Click **Yes** on the message box.
5. Click **Save** toolbar button.
