

How to Setup Promotional Pricing - Combination of Date Range and Disc thru Amount

Follow the steps below to guide you on how to setup Special Pricing.

1. Open **Item screen > Pricing tab > Special Pricing tab**.
2. A new line will be available to allow you to add a new special pricing information.
3. Pricing is setup per location. Select a location in the **Location field**.
4. Select the **Promotion Type**.
5. Select Item **UOM**. To show how Unit Price is computed on this tab, see [How Unit Price is computed based on UOM selected](#).
6. The **Qty field** will be updated by the Unit Qty setup of the UOM you selected.
7. In the Discount By field select either Percent or Discount.
8. Depending on the Discount By selected, fill in amount or percent in the **Amount/Percent field**.
9. The **Unit Price** will automatically be computed based on Retail Price/MSRP, Pricing Method and Amount/Percent selected.
10. The **Discounted Price** will automatically be computed based on Unit Price, Discount By and Discount Amount/Percent. To show how Discounted Price is computed, see [How Discounted Price is computed based on Discount By selected](#).
11. In the **Begin Date** and **End Date fields** set begin and end dates for discount/rebate to be in effect.
12. In the **Disc thru Amt field** enter the amount that must be purchased for the discount/rebate to be effective.
