

Transport Quote

The Transport Quote screen allows you to create, edit, and view quotes. This program is used to send Customer Quoting to highlight best pricing.

The image shows a 'Quote Generation' window with a title bar containing a maximize button and a close button. Below the title bar are two buttons: 'Generate' and 'Close'. The main area of the window contains four input fields, each with a dropdown arrow on the right: 'Quote Group:', 'Customer:', 'Quote Date:', and 'Effective Date:'. At the bottom of the window is a status bar with several icons (a question mark, a gear, a lightbulb, and an envelope) and the word 'Ready'.

Open the Quote screen from **Transports | Quote**. If there is no existing record yet, the menu will open a blank Quote screen with Quote Generation window, where you can create a new quote.

The image shows the 'i21 Source Company' application interface. On the left is a sidebar menu with various options, including 'Quote' which is highlighted with a red box. The main area displays a table of 'Transport Quotes'. The table has columns for 'Quote Number', 'Customer Name', 'Quote Date', and 'Quote Status'. There are 31 rows of data, each with a checkbox in the first column. The table is titled 'Transport Quotes' and has a search bar and a 'Filter Records (0/3)' indicator. The table is also titled 'Transport Quotes' and has a search bar and a 'Filter Records (0/3)' indicator.

Quote Number	Customer Name	Quote Date	Quote Status
<input type="checkbox"/> TRQ-3	All U Need Kwik-Stop	04/02/2016 01:23:00	Confirmed
