

How To Import Unit of Measure from Origin

Here are the steps on how to import Unit of Measure from Origin:

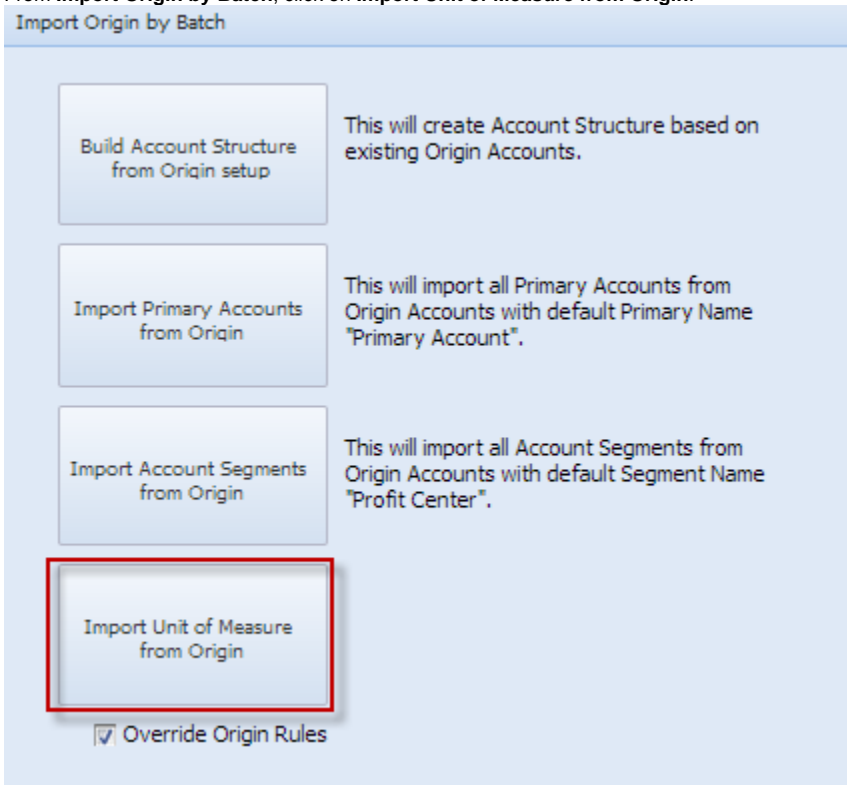

1. Open **Origin Conversions** screen from **Admin > Utilities**.

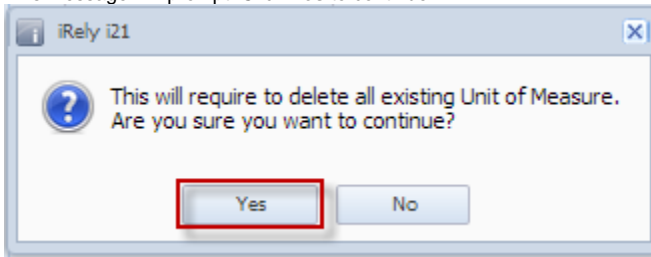

2. Select **General Ledger** module.

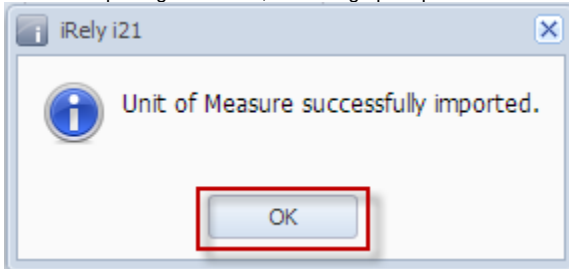

3. From **Import Origin by Batch**, click on **Import Unit of Measure from Origin**.

4. This message will prompt. Click **Yes** to continue.

5. After the importing is finished, a message prompts. Click **OK** to close.

6. Open **Chart of Accounts** screen from **General Ledger > Maintenance**, select an account and click **Edit** button.
7. Click on the **UOM** ellipsis to open **Unit Maintenance** screen. This will display all the Unit of Measures imported from Origin.
